Young Rembrandts

The open-ended nature of art education allows children to take more risks in their projects. Because there is flexibility in the outcome, children don't feel as much pressure as they create. Encourage your child's enthusiasm for art and develop their skills by signing them up for a Saturday morning drawing or cartooning class. Young Rembrandt's skilled teachers introduce children to color, imagery, and core drawing techniques while they explore their own creativity. We offer three 4-week sessions this fall.
